Professional Summary

Full Stack Developer with hands-on experience in building and maintaining end-to-end web applications using the MERN stack. Proficient in developing responsive user interfaces, designing RESTful APIs, and integrating NoSQL databases. Strong understanding of performance optimization, application security, and scalable architecture. Adept at debugging, testing, and collaborating in team environments to deliver high-quality software solutions.

Experience

- MERN Stack Developer Intern, Novi Tech R&D Pvt Ltd** 11/2025 – 02/2026
- Contributed to **end-to-end web application development** in a team environment
 - Assisted in designing and implementing **RESTful APIs and backend services**
 - Integrated frontend components with backend APIs for **dynamic data handling**
 - Performed **debugging, testing, and issue resolution** to improve application quality
 - Collaborated with developers to enhance **performance and usability**

Education

Master of Computer Applications (MCA), JJ College of Arts and Science, Pudukkottai
Bharathidasan University

Technical Skills

Languages JavaScript, HTML5, CSS3	Frontend React.js (Responsive UI, Component-Based Development)
Backend Node.js, Express.js (RESTful API Development)	Database MongoDB (Mongoose), Basic SQL
Tools Git, GitHub, Postman, VS Code, Chrome DevTools	Concepts REST APIs, JWT Authentication, CRUD Operations, API Integration, Debugging, Performance Optimization, Responsive Design

Projects

- Secure Task Management System, MERN Stack** 11/2025 – 02/2026
- Developed and maintained a **full-stack web application** for task management with secure user authentication
 - Designed and integrated **RESTful APIs** to enable seamless client-server communication

- Built **responsive and user-friendly interfaces** using React.js, improving usability across devices
- Implemented **JWT-based authentication and authorization**, enhancing application security
- Developed **CRUD functionalities** with user-specific data handling and access control
- Optimized application performance through **efficient API handling and error management**
- Applied **input validation and secure data storage practices** to improve reliability
